September 29, 2017

St. Mary's Conference Center

Sponsored by:

Purpose:

Management of stroke and neurological disease and injury requires an organized approach across multiple specialties and services. The purpose of this conference is to provide a venue for multidisciplinary collaboration and sharing of information with the goal of improving care for these patients.

Target Audience:

Nurses, therapists, allied health professionals

Conference Objectives:

The participant will be able to:

- 1) Describe challenges faced in providing the latest stroke evidence-based practice for optimal outcomes across the continuum of care
- 2) Discuss the past, present, and future of advancements in neurosurgery and its impact on providing optimal care
- 3) Identify the role of the advanced practice nurse in the transitions of care for the neuroscience patient
- 4) Name at least one impediment in caring for the patient presenting with balance disorders
- 5) Explain the intricacies involved in providing rehabilitation for the acute stroke patient
