

#### **Ground Ambulance Equipment and Supply List**

This is the minimum equipment and supplies required on-board during response and patient transport for BLS (Class B) and ALS (Class C) EMS vehicles. All equipment must be operational. When applicable, items must be sealed and within current expiration period. All supplies and equipment (i.e.: monitors/defibrillators, drug bags/boxes, etc.) must be in enclosed compartments or otherwise secured to restrict movement in the event of vehicle crash. All oxygen cylinders must be secured with brackets that meet Ambulance Manufacturer's Division oxygen tank retention standard 003.

	Vehicle	е Туре
Item	Class B BLS	Class C ALS
	Quantity	Quantity
A. Airway and Ventilation		3,000
Fixed suction system, electric powered with disposable collection container	4	4
and large bore tubing, assembled and ready for use	1	1
Portable suction unit, assembled and ready for use – commercially available	1	1
manual unit is acceptable	I	I
Large bore rigid oral suction catheters – must have internal diameter greater	2	2
than or equal to 0.25 inches	۷	2
Flexible suction catheters – 6F, 10F and 14F	2 each	2 each
Salem sump tubes – 8F, 12F and 18F with irrigation syringe	N/A	1 each
Meconium aspirator ET-tube adaptor	N/A	1
On-board oxygen system ("M"-size cylinder or equivalent) with 2 wall outlets	1	1
Adjustable oxygen flow regulators	2	2
Portable oxygen system with non-gravity dependent oxygen flow regulator	1	1
Full spare portable oxygen cylinder ("D"-size or larger)	1	1
Adult nasal cannula	4	4
Pediatric nasal cannula	2	2
Adult non-rebreather (NRB) mask	4	4
Pediatric non-rebreather (NRB) mask	2	2
Oxygen connection tubing – may be with BVM or nebulizers	2	2
Nasopharyngeal airways – assorted sizes, 16F – 34F. No less than 5 different sizes	1 set	1 set
Oropharyngeal airways – sizes 0 through 5	1 set	1 set
King LT/LT-D airway kits – sizes 3, 4, and 5.	1 each	1 each
Adult end-tidal CO2 detectors – colorimetric or qualitative	2 each	2 each
Pediatric end-tidal CO2 detectors – colorimetric or qualitative. (Optional at	2 Gaoii	2 Gaoii
BLS level if pediatric King airways are utilized)	N/A	2 each
Laryngoscope handle with extra batteries	N/A	1 each
Laryngoscope blades - 0 & 1 straight; 2, 3, 4 straight or curved, with spare		
bulbs if applicable	N/A	1 each
Et tubes, sizes:		
2.5 uncuffed	N/A	2 each
3.0 or 3.5 uncuffed	N/A	2 each
4.0 or 4.5 cuffed or uncuffed	N/A	2 each
5.0 or 5.5 cuffed or uncuffed	N/A	2 each
6.0 or 6.5 cuffed	N/A	2 each
7.0 or 7.5 cuffed	N/A	2 each

ET-tube stylettes, adult and pediatric Magill forceps, adult and pediatric N/A Magill forceps, adult and pediatric N/A 1 each 1 eac	8.0 or 8.5 cuffed	N/A	2 each
Magill forceps, adult and pediatric Chest decompression large bore needle, minimum of 3.25" length 14 - 16 gauge for adult and 1.25" 16 gauge for pediatrics Adult, child and infant bag valves, self-filling with oxygen reservoir 1 each 1 eac

Ondansetron (Zofran®) 4mg ODT	2 tablets	Optional
Oral Glucose, 15g tubes	2	2
Thiamine, 100mg total	N/A	
G. OB Equipment	IN//A	
Sterile OB kits with bulb syringe	2 each	2 each
Thermal absorbent blanket and head cover made of a heat-reflective material	1 each	1 each.
H. Safety - Quantities and sizes of all PPE must be sufficient for		
Protective helmet meeting ANSI Z89.1 Type II, NFPA 1908-2007 or NFPA 1951-2007 standards		
Protective eyewear meeting ANSI Z87.1-2003 standards		
High visibility clothing compliant with 23 CFR Part 643 (Federal Highway Worker Visibility Act) ANSI/ISEA 107-2004-Class 3 or 207.		
Protective gloves, extrication-type or heavy-duty leather		
Current DOT Emergency Response Guidebook (paper or electronic version)	1	1
Fire extinguisher, 5lb 2A-10BC	1	1
Pedi-Mate® child occupant protection system	1	1
Chemical light sticks or reflective triangles, etc.	3	3
I. Miscellaneous		
Blankets	2	2
Cold packs	4	4
Disposable bedpan	1	1
Disposable, splash resistant emesis bags	4	4
Flashlights	2	2
Hot packs	4	4
Impermeable body bag	1	1
Pillow	1	1
Sheets	4	4
Stair chair or suitable substitute	1	1
Towels	2	2
Urinal	1	1
Wheeled stretcher, multi-level, with 5-point (over shoulder) patient restraint system	1	1
WV triage tags	25	25
WV triage tape rolls – red, yellow, green and black	1 each	1 each
Protocol manuals appropriate for level of staffing (paper or electronic version)		
J. IV and Medication Administration		
Mini-drip IV administration set, 60gtts/ml. May utilize Select-3® sets or equivalent	N/A	4
Macro-drip IV administration set, 10 to 15gtts/ml. May utilize Select-3® sets or equivalent	N/A	4

Extension sets. May utilize Select-3® sets or equivalent	N/A	4
IV spike to luer lock adapter (required for Add Vantage Diltiazem		
administration)	N/A	2
Saline locks and flushes	N/A	4
IV catheters, sizes 14g, 16g, 18g, 20g, 22g and 24g	N/A	4 each
EZ-IO driver	N/A	1
EZ-IO needles – adult and bariatric	N/A	2 each
Adequate site preparation materials – alcohol or povidone		
Venous tourniquets	N/A	
Nebulizer kits	2	2
Drug atomizers	2	2
Syringes in appropriate quantities and sizes – 1ml, 3ml, 5ml, 10ml, 30ml, 60ml	2 each	2 each
Needles in appropriate quantities, sizes and lengths. Some greater than 1.5" in length for IM mediation administration		
Length/weight based pediatric drug and equipment reference – <i>Broselow</i> tape or equivalent	1	1
K. Two-Way Communications		
Between vehicle, dispatcher and 911 center (if applicable)		
Between vehicle and regional command		
For disaster operations		
L. Optional Equipment and Supplies		
Blood sample tubes and supplies		
Capnography (Required for RSI agencies)		
Commercially available soft restraints	1 set	1 set
Cyano-Kit		
Elastic bandages		
ET Tube Introducer	N/A	
Heimlich valves	N/A	
Hemostatic dressings. Must be impregnated gauze-type hemostatic agent		
IV fluid warmed		
IV infusion pump	N/A	
Mechanical Chest Compression Device		
Morgan Lens		
Non-invasive vital signs monitor		
Pediatric King Airways - sizes 2 and 2.5	1 each	1 each
Pediatric end-tidal CO2 detectors – colorimetric or qualitative	1	N/A
Pediatric spinal immobilization device		
Pelvic immobilization device		
Percutaneous Airway Kit - (example: Quick Trach 1® or Quick Trach 2® or	NI/A	4
other commercially available non-surgical kit.)	N/A	1
Pocket Mask		
Simple ventilator	N/A	
Vacuum splints		
Video Assisted Laryngoscope	N/A	1

M. Optional Medications		
EpiPen	1	N/A
EpiPen Jr.	1	N/A
Etomidate (Amidate®), 80mg total	N/A	RSI ONLY
Ketamine 500 mg, Vial	N/A	2
Sodium Bicarbonate, 50mEq pre-loaded syringe	N/A	Optional
Succinylcholine, 400mg total.	N/A	RSI ONLY
Vecuronium (Norcuron®), 20mg total	N/A	RSI ONLY
Tetracaine (0.5%), 2mL total		
Tranexamic Acid (TXA) 100mg/ml, 10mg Vial	N/A	2 Grams
Rocuronium (Zemuron®)	N/A	RSI ONLY
